Sharing food  
and **love**

Our dishes are made  
with **local** products  
that do justice to  
their origin.

All dishes you can  
**share** and come to  
the rhythm of the  
kitchen in the  
middle of the table.

## The North Sea

'Our fish is the most delicious in the world, but we don't know it'

That while our North Sea offers a treasure chest of goodies. We are trying to change that and utilize the numerous possibilities.

We get the help of our fishermen and fish suppliers to make this possible. We must learn to eat what the fisherman catches. Not only do we feel better about this, but also the fishermen who get a fair price that way for their catch.
